Manufacturing of LPG Cylinders

27. SHRI SATYA PRAKASH MALAVIYA:
SHRI VIRENDRA VERMA:

Will the Minister of PETROLEUM AND NATURAL GAS be pleased to state :

(a) whether it is a fact that the LPG cylinder manufacturing units in the country are producing even less than 50 per cent of their installed capacity because there are no buyers and that many of the units are languishing ;

(b) whether it is also a fact that despite adequate indigenous production capacity, Government procured 8 lakh LPG cylinders from Brazil ; and

(c) if so, what are the reasons therefor, when the demand could be easily met indigenously ?

THE MINISTER OF STATE OF THE MINISTRY OF PETROLEUM AND NATURAL GAS (SHRI NAWAL KISHORE SHARMA): (a) It is a fact that Cylinder manufacturing units are not able to utilise their full capacity as the installed capacity is far in excess of requirement of oil industry. The Oil Industry is procuring cylinders to meet their full requirement.

(b) and (c) Since indigenous manufacturers were not in a position to meet the Industry's demand, it was decided in 1983, to import 8 lakh cylinders. The actual import has been restricted to 6, 97, 500.
